Extensive guideline! Its such a great go through. It is definitely basic but surprises in the 50 % of the pdf. It is extremely difficult to leave it before concluding, once you begin to read the book.

Stylus Publishing, United States, 2011. Hardback. Book Condition: New. 2nd Revised edition. 231 x 160 mm. Language: English . Brand New Book. Building on the success of the first, this new edition has been updated to cover the latest hiring trends, changing economic circumstances, and feedback from readers. The authors have expanded the book to deal with issues faced by minority candidates, and have added contributions from scientists to cover such issues as negotiating faculty contracts to ensure adequate lab space and resources. They give more emphasis to applying for non-academic jobs and offer case study scenarios of candidates who have followed both academic and non academic paths. The authors urge readers to go develop a philosophy statement for research and service, as well as for teaching. They explain what s involved in applying for joint positions, offer advice on applying for administrative jobs outside the academy, and prepare the reader for first year academic and corporate performance reviews. They have updated the resources, references, examples and scenarios. This book covers the process for Master s- and Ph.D.-level job-seekers of all disciplines: from identifying sources of information about positions, to advising on the preparation of effective CVs and portfolios, through guidance on the process of interview to final negotiation of terms. Its invaluable advice is informed by the authors experiences in both academic and corporate arenas, as well as by the narratives of current and recent job seekers. The authors cover the full spectrum of potential positions--adjunct, visiting, temporary and tenure-track faculty appointments--at-year and 2-year institutions. This book includes sample application letters and vitae, a model for job search workshop, and a rich list of resources both in print and on-line. An accompanying Web site offers a wealth of information on locating job postings, complete with hot links to major...
